

DEAR LAKE RESIDENTS:

Midwest Aqua Care is now scheduling services for aquatic weed and algae control at your lake. As Minnesotans, we pack a lot of fun into our summers, we'll help you keep it that way! We offer a two-treatment program for seasonal control of aquatic weeds and algae. We apply EPA registered aquatic herbicides and algaecides. Please return the sign up form by mail or fax to:

** This program does not include waterlily or cattail control. Contact us for special pricing. ** Optimal application timing may change subject to seasonal variation in growth rates.*

Submerged Weed and Algae Control Policy: Treatments will control most native plant types including invasive weeds like Eurasian Watermilfoil and Curly-Leaf Pondweed. Plant re-growth can occur and/or other plants may repopulate the control site. Two treatments will minimize re-growth. Resistant plants include vallisneria, clasping-leaf and large-leaf (cabbage weed). If results are not satisfactory, contact us 12 to 16 days post treatment to re-evaluate treatment options. No guarantee is offered, however, Midwest Aqua Care, Inc. understands the value of our long-term relationship and your satisfaction and will administer the best practices and products to achieve the greatest outcome.

Please fill out sign-up form and return by **March 21st**
 Your signature is required for MN DNR permit processing.

Wishing you a great summer season !
